Discussion centered around concessional Registration; Clubs of convenience set up to obtain concessional Registration was mentioned, dodgy clubs would have problems with insurance, note that membership of an Incorporated club is a condition of concessional Registration in Queensland

With the *National Economic Value Survey* being conducted by AHMF, there have been problems obtaining numbers of vehicles on concessional Registration in each State; obtaining numbers for Queensland has been a long term problem, but recently made available, AHMF wants survey results to demonstrate to government the importance of historical motoring activity; the response by clubs and their members (returned survey responses), has been huge, with 6300 responses received by the 30 September closing date

Attention was drawn to a recent article by Frank Farrell ?? in *Motor Museum*

An interesting discussion ensued about the introduction of Electric Vehicles, various problems, esp fires, charging problems, grid problems and power availability. A delegate mentioned problems with electric buses

A motion was put that QHMC donate \$150 to the Prostate Cancer Foundation of Australia.
